Senior Deputy Head Prefect

PROFILE

Full-stack developer and founder of Aureus Technologies. I build business software such as point of sale, accounting, garage management, and marketplaces, mostly with Laravel and the MERN stack, from database design to the screens users click on. Currently a full-stack developer intern at Virtual System Solutions, a software engineering apprentice at Eyeplex Solution, and a fourth-year IT undergraduate at SLIIT.

EXPERIENCE

- **Founder** · Aureus Technologies — 2026 – Present
  Software studio building websites, business systems, and mobile apps for clients. Products include Invotron and Nimuzon.com.
- **Full-Stack Developer Intern** · Virtual System Solutions — 2026 – Present
  Building and maintaining Laravel applications, including the FleeV garage management system.
- **Software Engineering Apprentice** · Eyeplex Solution — Present
  ASP.NET Core web apps: REST APIs, MVC, authentication, and database work.
- **Land Surveyor Assistant** — Part-time
  Field support for licensed surveyors: boundary marking, readings, and setting-out work.

SELECTED PROJECTS

Invotron — invotron.store
Point of sale, inventory, quotations, warranties and repairs, payroll, VAT, and double-entry accounting in one multi-tenant system.
Multi-tenant · POS · Accounting

FleeV — fleev.net
Cloud garage management that replaces paper work orders, missed bookings, and scattered records.
Laravel · MySQL

Nimuzon.com — nimuzon.com
An online marketplace for natural Sri Lankan gemstones such as Ceylon sapphires and rubies.
Full-stack · E-commerce

Pentakill — pentakill-blush.vercel.app
Look up any League of Legends player, count every pentakill in their match history, and compare two players.
Riot Games API · UI design

Aureus Technologies — aureustech.online
My studio's website and project management suite: presents services and client work, and runs client projects.
Full-stack · Project management
